

## FORWARD-LOOKING STATEMENTS AND OTHER INFORMATION

Our website includes information, reports, documents, videos and other content that contain certain “forward-looking statements,” as defined under U.S. federal securities laws. These statements may be identified by the use of forward-looking terminology such as “believe,” “expect,” “may,” “will,” “should,” “project,” “could,” “plan,” “goal,” “target,” “potential,” “seek,” “intend,” “aspire,” “strive” or “anticipate” or the negative thereof or comparable terminology. These forward-looking statements include, but are not limited to, the sustainability- and ESG-related goals, targets and commitments and underlying assumptions, data, strategies, plans and objectives that are presented, discussed, referenced or otherwise made available on or through our website, and are based upon current expectations, predictions, estimates, assumptions and beliefs concerning future events and conditions at the time of release or publication. Readers and viewers are cautioned not to place undue reliance on any forward-looking statements.

Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company that could cause actual results to differ materially from such statements and from the Company’s historical performance, results and experience. With respect to our ability to successfully meet our sustainability- and ESG-related goals, targets and commitments, including within the expected timeframes, these risks, uncertainties and other factors include, but are not limited to: changes in laws, regulations, prevailing standards or public policy; the alignment of the scientific community on measurement and reporting methodologies and approaches; the complexity of commodity supply chains; the evolution and adoption of new technology, including traceability practices, tools and processes; additional costs and investments in furtherance of complying with new or additional requirements or achieving our goals, targets and commitments; any actual or perceived failure to comply with new or additional requirements or meet stakeholder expectations; and other risks, uncertainties and factors described from time to time in the Company’s reports filed with the Securities and Exchange Commission (SEC). Such other risks, uncertainties and other factors *described* from time to time in the Company’s reports filed with the SEC that could cause actual results to differ materially include, but are not limited to: general business conditions, strengths of retail and manufacturing economies and growth in the coatings industry; changes in general economic conditions; changes in raw material and energy supplies and pricing; disruptions in the supply chain; adverse weather conditions or natural disasters, including those that may be related to climate change or otherwise, and public health crises; losses of or changes in our relationships with customers and suppliers; competitive factors, including product innovation and quality; our ability to successfully integrate past and future acquisitions into our existing operations, as well as the performance of the businesses acquired; our ability to achieve expected benefits of restructuring and productivity initiatives; weakening of global credit markets and our ability to generate cash to service our indebtedness; risks and uncertainties associated with our expansion into and our operations and achievement of growth in foreign markets; cybersecurity incidents and other disruptions to our information technology systems and operations; our ability to protect or enforce our material trademarks and other intellectual property rights; our ability to attract, retain, develop and progress a qualified global workforce; damage to our business, reputation, image or brands due to negative publicity or otherwise; increasingly stringent domestic and foreign governmental regulations, including those affecting health, safety and the environment; inherent uncertainties involved in assessing our potential liability for environmental-related activities; other changes in governmental policies, laws and regulations; and the nature, cost, quantity and outcome of pending and future litigation and other claims. Since it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results, the above list should not be considered a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as otherwise required by law.

The sustainability- and ESG-related information presented, discussed, referenced or otherwise made available on or through our website does not cover all information about our business. The inclusion of information or

references, including the use of “materiality” or similar terms, should not be construed as a characterization regarding the materiality of such information to our financial results or that such information is necessarily material to investors or other stakeholders for purposes of U.S. federal securities laws.

The sustainability- and ESG-related goals, targets and commitments presented, discussed, referenced or otherwise made available on or through our website are aspirational and not guarantees or promises that such goals, targets or commitments will be achieved. In addition, historical, current and forward-looking information made available on or through our website may be based on standards, methodologies and practices for measuring progress that are still developing, internal controls and processes that continue to evolve, and assumptions that are subject to change. Accordingly, such historical, current and forward-looking information, including goals, targets and commitments and underlying assumptions and data, may be subject to modifications in future disclosures due to such developing standards, methodology, practices and controls and processes.

Certain sustainability- and ESG-related historical data for dates and periods prior to 2022 presented, discussed, referenced or otherwise made available on or through our website has been revised to reflect updates made as a result of our internal review processes and developing standards, methodology, practices, and controls and processes. Neither future distribution of information, reports, documents, videos and other content nor the continued availability of such content in archive form or otherwise on our website should be deemed to constitute an update or re-affirmation of such content as of any future date. Any future update will be provided only through a public disclosure indicating that fact.

Any reference to the Company’s support of, work with, or collaboration with a third-party organization in connection with the Company’s sustainability- and ESG-related efforts does not constitute or imply an endorsement by the Company of any or all of the positions or activities of such organization.
